DETAILED ACTION

1. In view of the appeal brief filed on August 19, 2003, PROSECUTION IS HEREBY REOPENED. New ground rejection is set forth below.

To avoid abandonment of the application, appellant must exercise one of the following two options:

(1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,

(2) request reinstatement of the appeal.

If reinstatement of the appeal is requested, such request must be accompanied by a supplemental appeal brief, but no new amendments, affidavits (37 CFR 1.130, 1.131 or 1.132) or other evidence are permitted. See 37 CFR 1.193(b)(2).

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Re claim 1: The term "main" is relative and render the claim indefinite because it is not defined by the claim. In particular, it is unclear whether the "main" avalanche region is the region which is bigger in size or has more electron hole pairs generated in absolute number or in number relative to the volume or anything else. The disclosure describes the narrow bandgap region is also a region of avalanche multiplication. There

Art Unit: 2811

is no net distinction between the narrow bandgap region and a "main" avalanche region possible in as far as the avalanche effect is concerned.

Claims 2-19 are rejected because each includes the limitations of independent claim 1.

Allowable Subject Matter

4. Claims 1-19 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Donghee Kang whose telephone number is 703-305-9147. The examiner can normally be reached on Maxiflex.
